Guaranteed to bloom; bulblets guaranteed to germinate.

I am continuing a condensed folder. Additional information about any of my originations will be gladly given to anyone asking for it.

I will exercise every care to send out only first class stock, as I am anxious to satisfy all my customers and will gladly make replacements if any of my bulbs do not bloom.

(Signed) JAMES F. McGUIRE

Terms — Net Cash before shipment. 25% deposit will hold early orders until April 1st. If you require larger quantities of bulbs or bulblets write for special price.

Shipment — Express shipments to States or Countries maintaining terminal inspection will be prepaid to inspection point.

These seeds are from disease-resisting bulbs (3 yrs. old) grown in specially prepared soil, fully protected, watered, fed weekly from the time of bloom until the picking of seed.

There is no doubt in my mind that each and every seed should produce an outstanding flower.

My experience in germinating bulblets for the past twenty years is soaking them in plain water from 4 to 5 weeks before planting time. I always had great success with all varieties, only two did not respond to this method. They are Miss New Zealand and Crystal.
